Sample Document for LLM Rule Testing

Purpose:
This document is created on 20th November 2025 to test PDF rule checking.

Definitions:
Term 'LLM' refers to Large Language Models.

Responsibility:
The developer is responsible for building and testing the system.

Requirements:
1. The system must extract text from the PDF.
2. It must check rules using LLM logic.
3. It must return pass/fail with evidence.

End of Document.
